

PAPER FALLBACK · USE ONLY WHEN THE LOBBY TABLET IS OFFLINE

Visitor Log — Offline Fallback

This sheet is an AS9100D / CMMC visitor-control record. Back-enter every visit through the tablet's own Sign In screen once it is back online (the Visitor Log page has no add-visit form), then file this sheet — do not discard it.

DATE _____ STATION _____ COMPLETED BY _____

TIME IN	VISITOR NAME	COMPANY	HOST (WHO THEY'RE SEEING)	PURPOSE (MEETING / DELIVERY / CONTRACTOR / INTERVIEW / AUDIT / OTHER — IF OTHER, NOTE THE REASON)	SAFETY/NDA ACK (INITIALS)	TIME OUT

The safety/NDA acknowledgment initials are required, and an “Other” purpose needs its reason written in — the electronic form refuses a back-entered visit missing either. Back-entered records carry the entry time, not the visit time, so this filed sheet remains the authoritative time record. Every visitor must have a time out before end of day (staff sign-out from the Visitor Log page for stragglers).
